

AJUGA

2% TOTAL ECDYSTEROIDS

ABOUT

Traditionally Ajuga has been used as a generic, specifically to treat heart diseases, muscle and stomach aches. It is taken as a diuretic, and for inflammatory diseases and infections. Our Ajuga extract is made from *Ajuga turkestanica* standardized to 2% total ecdysteroids.

Publications indicate anabolic properties, protection of bone and joint degeneration, neuronal signaling as well as anti-microbial effects.
